Past Performance chart

This document was published on 23-12-2022

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.

This chart shows the fund's performance as the percentage loss or gain per years over the last 9 years.

Performance is shown after deduction of ongoing charges. Any entry or exit charges are excluded from the calculation.
